

Claim 4 (amended). The rubber blanket configuration according to claim 2, wherein said clamping bar projects beyond an edge of the blanket material.

Claim 5 (amended). The rubber blanket configuration according to claim 4, wherein said edge is a leading edge of the blanket material.

*A2*  
*(concluded)*  
Claim 6 (amended). The rubber blanket configuration according to claim 2, wherein the register cut-outs are formed only in said clamping bar.

Claim 7 (amended). The rubber blanket configuration according to claim 2, including a sealing substance provided in at least one corner angle between the blanket material and said clamping bar.

*Sub*  
*85*  
Claim 8 (amended). The rubber blanket configuration according to claim 2, including a clamping device, only said clamping bar being grippable by said clamping device for fastening the rubber blanket to a cylinder.

*A3*  
Claim 10 (amended). A printing machine, comprising:

a rubber blanket configuration having a rubber blanket formed  
of a blanket material;

said rubber blanket including a clamping bar having register  
cut-outs formed therein.

Claim 11 (amended). A varnishing machine, comprising:

a rubber blanket configuration having a rubber blanket formed  
of a blanket material;

said rubber blanket including a clamping bar having register  
cut-outs formed therein.
